

I am concerned that potential changes in LPFM could impact my ability to receive K-LOVE in my area. My family listens to this station regularly. I have a 4 year old son who enjoys the positive message music they play. I can let him listen without having to worry about monitoring what songs are being played and what the DJs may be saying. I know many families that feel the same way in our area. We can count on this station to play positive music and it is a positive alternative for many youth to listen to. If K-LOVE were to be taken off air as a result of this new regulations this would negatively affect our community and the remove one of the only positive message listening choices we have. I am all for providing new service and additional choices for the public but not at the expense of existing choices that we have made. K-LOVE is a listner supported station and is on the air because enough people in this area support them. People vote with their dollars and enough have voted yes to K-LOVE that is on the air here. Thanks for allowing me to provide my input.
